## Pennsylvania Superintendent Admits to Hiding Student's Gender Transition from Parents

West Chester, Nov 10, 2022 -- Earlier today, No Left Turn in Education (NLTE) broke this [story](#). During the October 25th West Chester, PA School Board meeting, a parent asked Dr. Sokolowski, the Superintendent, if the district hides students' gender transition from parents. Dr. Sokolowski admitted [he did just that](#) as principal of Henderson High School (2008-2012). Does this mean hiding paramount information from parents has been going on for more than a decade?

In addition, we uncovered the district's detailed and extensive **CONFIDENTIAL [Gender Support Plan](#)**. The plan even includes arrangements for instances when the child has a sibling at the school, or when the child has an IEP, on how to keep the parents in the dark about their child's transition.

NLTE also acquired [email](#) communication between a parent and the superintendent where Dr. Sokolowski says *"I cannot say that a student who is simply questioning their identity would constitute a health and safety issue"* in response to being asked if he would inform the parents under such circumstances.

This comes just weeks after we [exposed](#) that the same district held training for elementary school teachers on how to introduce transgenderism to kids as young as five.

Can public trust in schools be restored?
